

Curriculum Sequencing Overview

Unit 3 - Year 9 - Current Geographical Issues								
Week	1	2	3	4	5	6	7	8
Date wb	23/01/23	30/01/23	06/02/23	20/02/23	27/02/03	06/03/23	13/03/23	20/03/23
Big Ideas (key concepts)	Global warming – causes and impacts on planet earth		Ocean plastic and its consequences			Use of resources and how they are rapidly depleting		
Lesson Topics Sequence	1. Causes of global warming 2. Effects of global warming 3. What should we do? What could we do?		4. What should we do? What could we do? 5. What is plastic and why is it a problem in the ocean? 6. Global journey of plastic waste		7. Approaches to reducing ocean plastic waste 8. Approaches to reducing ocean plastic waste 9. Resource availability		10. Causes of resource depletion 11. Effects of resource depletion 12. KTA	
Key Assessments			What should we do, what could we do write up		Write up of the different approaches to reducing the plastic ocean waste			KTA
Home Learning	Self-quizzing Global Warming Keywords 1-6	Self-quizzing Global Warming Keywords 7-12	Self-quizzing Plastic Keywords 1 to 8	Creation of a plastic waste information sheet	Self- quizzing Resource Depletion Keywords 1 to 8	Self – quizzing Global Warming 1-6	Self-quizzing Global Warming Keywords 7-12	Self—quizzing on the section least confident on as identified in the KTA
